## Add on Module

STARWATCH ID BADGING STANDARD

ID BADGING STANDARD is an application software for creating, designing and editing identification cards or visitor cards. The software can be integrated with the database of the access control management software (STANDARD) to export the card user information and allows integrations with scanner, webcam, sign-pad and etc. for convenient image insertion and easy card issuing.

▶▶ System Features

Simple and Intuitive Card Design and Creation

- Easy Card Design Using the Wizard Feature
- Equipped with Advanced Image Editing Tool
- Efficient Design File Management and Search Features
- Dual-Side and Various Sizes(Card, Label, Paper) Printing

Card Design Print Information

Card Design Registration

Effective Database Connectivity and Management

- Seamless Integrations with Access Control, HR and ERP Database
- Customize User Definable Fields for Additional Information Input
- Issues and Prints Bar Codes (Linear Bar Code, 2D Bar Code)

Integrations with Various Devices for Convenient Card Issuance

- Captures and Loads Images via Webcam
- Captures and Loads Digitized Signature via Sign Pad
- Captures and Loads Personal ID Cards, Business Cards, Driver's License, etc. via Scanner
